Dear Year 2 parents and caregivers,

Where has the year gone?

This term we will be studying the HSIE unit “Wet/Dry Environments.” The students will be learning about various wet and dry habitats and we have a fantastic excursion planned at the end of the term to look at creatures that live amongst these environments.

The students will be completing a unit of work in Personal Development. These lessons are designed to empower students to make informed and safe decisions based on their needs and requirements of feeling safe and belonging.

Year 2 will join in the primary assemblies this term in preparation for the transition into primary school.

Homework will continue as usual this term. Please encourage your children to log on to Mathletics and Reading Eggs as these are wonderful tools in supporting work completed in the classroom.

Please ask your students if they require any equipment. We strongly recommend that all students have a pencil case with at least 2 lead pencils, a sharpener, a glue stick, an eraser and some colour pencils. This encourages a bit of personal responsibility for their belongings.

School photos will be held later this term so please make sure your child is in full school uniform.

Please make sure an absent note is sent in to school when your child returns. It is most important for our school records.

We are looking forward to a very busy and terrific term. Thank you for your continued assistance and support.

Kind regards,

Simon Alderton, Shannan Jeffries and Rob Zappia
